The Hon. Genl. Secy., P. W. D., Elecl. Deptt. Technical Staff Union, Bombay, had complained in his letter, dt. the 17-4-1952, that inspite of bringing it to the notice of the Ex. Engr., Bombay Elel. Dn., several times, the following two grievances of the Union remained unattended:--

(1) Refixation of pays of staff on the pert. estabt. dut to introduction of revised pay-scales.

(2) Promotion in vacancies.

The El. Engr. to Govt. has now reported that pays of the persons on the pert. estabt. have already been refixed and the difference due to them have also been paid. The fixation of pays are however, subject to varification in audit.

2. With regard to promotion in vacancies, the necy. instructions have been issued by the El. Engr. to fill in vacancies by promotions as expeditiously as possible.

3. The draft put up may issue, if approved.

The Hon. General Secretary, P. W. D. Elel. Deptt. Technical Staff Union, has complained that inspite of several reminders their requests to be farnished with a copy of the seniority list of the workers and to pay the work-charged staff their annual increments have met yet been complied with. The Union authorities have not forwarded copies of corres. between the Union and the local officers, but it is clear from the communication Nos. and dates quoted by the Union, that every effort was made to get their grievances redressed at the hands of the local officers. A report from the Elcl. Engr. may be called for. The draft put up may issue, if approved.

2. The Hon. Gen. Secy., P.W.D., Elecl. Deptt. Technical Staff Union had represented to Govt. against the inordinate delay in the Elecl. Engr's office to attend to their complaints in respect of (1) increments to the work-charged staff and (2) to furnish a copy of the seniority list of workers. In his d.o. letter No. 12624/52, dt. the 8-12-52, the Elecl. Engr. states that according to the existing practice a consolidated Statement of work-charged persons due for increments is forwarded every six-months to the Ex. Engr. and some months lapse before the increment is finally sanctioned after varification. The Elecl. Engr. has now directed the Ex. Engr., Bombay Elecl. Dn., to obtain a consolidated statement every month and to sanction the increments immediately after vari--fication by the Accountant. All the outstanding increments have since been sanctioned. The Hon. General Secy. may be informed accordingly. The Elecl. Engr. may be requested to issue similar instruction to the other Ex. Engrs.

3. As regards the request to furnish a copy of the seniority list of workers it may be pointed out that it is not usual to furnish a copy of it to the Unions, as seniority list is an official documents and can only be shown to the staff concerned. From the Elecl. Engr's D.O. letter No. 12788, dt. the 10-12-52 it seems that the Union wants a consolidated seniority list of workers for the purpose of effecting promotions At present a separate list is maintained in each sub--Dn. and whenever promotions are to be effected a refce. is made to the S.D.Os. It is not clear why a consolidated seniority list of permanent and tempy persons

is .....

is not maintained separately on Circle basis. As the Elecl. Engr. is getting matters clarified from the representative of the Union as to the exact nature of their grievance further report from the Elecl. Engr. may be awaited. The Union may be informed that the Elel. Engr. has been requested to look into the matter. The Elecl. Engr. may be requested not to furnish a copy of the seniority list to the Union but to inform the Union that as the seniority list is an official documentx it will be circulated to the staff concerned only.

4. As regards the delay in furnishing his remarks, the Elecl. Engr. states that the papers were re--ferred to the Ex. Engr., Bombay Elecl. Dn., and have been misplaced in his office. The Ex. Engr. has been requested to fix responsibility on the person concerned so that disciplinary action can be taken against the person.X No further action seems necessary on this point the part of this Deptt.

It is pointed out by the Elcl. It is learnt that very often long time is taken to fill up a permanent vacancy in the staff and during that period somebody is asked to look after his work without any extra remmuneration. Sir,

I am forwarding herewith copies of the two letters which our Union had addressed to the Executive Engineer, Bombay Electrical Dn. P.W.D. in September and October of the last year. Being unable to get any reply from him in spite of our reminders, we sent similar copies of these of the Electrical Engineer to Goverment, P.W.D., on 17th December 1951 - letter No. 192 - and although it is now more than three months no action has been taken by the Department too, on any of the matters raised. The issues involved in both are important but strangely enough we have not even received acknowledgments of our letters from the officers concerned during the period of last six months.

We therefore find no alternative but to bring them to your notice with a request that you will direct immediate inquiry on the subject and redress the long standing grievances.

Since then we have been promised the list from time to time, and a large volumenof correspondence has passed on the subject between us and the Executive Engineer, P.W.D., Electrical Dn., Bombay. Then again on 2-5-52 and 5-7-52 we were simply informed that the matter was receiving attention but nothing transpired after that although more than a month elapsed. It is surprising that although the matter is receiving attention of various officers concerned since August 1950, the preparation and supply of such an ordinary thing as seniority list should take so long. Surely there is a limit to our patience and we are afraid that failing early compliance with our request we shall have to move further in the matter.

We sincerely trust that such a contingency will be avoided by you and necessary action will be taken at once.

Copy of letter No. 202 dt. 21-1-1952 from the Hon. General Secy., P.W.D. Electrical Department Technical Staff Union, Bombay to the Secretary to Govt., P.W.D. Bombay. Re:- Grant of increment to workcharged establishment in P.W.D. Electrical Division.

This is another matter in which we crave leave to trouble you as the question intimately concerns our members.

Yearly increments become due to the workers on the workcharged establishment of the P.W.D. Electrical Division on 1st April of each year. But it has been our consistant experien--ce that about a year lapses before they are sanctioned by the Department, and that too after a considerable correspondence on our part. We have very often brought this fact to the notice of the Executive Engineer, Electrical Division and some times even to the notice of the Electrical Engineer to Govt. but none of them has been good enough to redress the grievance so far. It is really regretable that in these days of abnormally high cost of living the workers should be deprived of their legitimate dues for such a long time every year.

This year too we have started correspondence on the subject by our letter dated 7th July 1951. Then there were two reminders one on 17th August 1951 and the other on 29th Sept. 1951 but none of these letters were even acknowledged by the Executive Engineer and therefore on 26th October 1951 we had to write to the Electrical Engineer. On 21st November 1951 the Executive Engineer for the first time wrote to us by his No. 8115 of 1951-52 that the bill was under preparation. We fail to under-stand why such a long time should have been taken to prepare a bill for a couple of hundred men on the staff.

We have therefore to request you to instruct the officers concerned to expedite the matter and to see that such delay does not occur any time in the future.

D.O.No. 12624/52

P.W.D. Secretariat, Fort,
Bombay, 8th December 1952.

Dear Shri Dravid,

Referring to your D.O.No. ANG 2352 F, dated the 28th ultimo, I wish to inform you that I have personally looked into the matter and observed that the papers were sent to the Executive Engineer, Bombay Electrical Division; but the same have been misplaced in his office and cannot be traced in spite of the thorough search made. The Executive Engineer is being asked to find out who is responsible for the same, and suitable action will be taken against the person concerned.

In the meantime, I have obtained a copy of the letter sent by the Honourary Secretary of the Union to Government on 21-1-1952 (vide copy attached), and observed that the increments to the workmen on the workcharged establishment, though made applicable from the due date, were actually sanctioned several months later on account of the Departmental practice of submitting a consolidated statement for the workcharged establishment once in six months, with the result that persons whose increments were sanctioned in the early part of the period had to wait several months until they were finally sanctioned by the Executive Engineer. I have now directed the Executive Engineer, Bombay Electrical Division, to obtain a consolidated statement of the workcharged staff every month and sanction the increments promptly after they are verified by the Accountant, so that persons entitled to such increments will start getting the same from the next month.

All the outstanding increments to-date have already been sanctioned by the Executive Engineer, Bombay Electrical Division, Bombay.

With regards,

Yours sincerely,

Subject:- Seniority list or workers in the P.W.D. Electrical Division.

Sir,

As back as August 1950 this Union had applied to the Executive Engineer, Electrical Division, for a copy of an up to date Seniority list of the employees in his Department as it was required for the information of the members of the Union. Simi-lar requests were made heretobefore and they were duly complied with but this time the Executive Engineer at first rejected the request by his letter No. 7382 dated the 14th September 1950 on the ground that the list was exclusively meant for the use of the department. This was of course a new position taken up by him and we had naturally to protest against it with the result that on 18th January 1951 the Executive Engineer informed us by his letter No. 13222 that the list was under preparation and would be supplied to us as soon as possible. We waited till 1st October 1951, but the list was not forthcoming in spite of our two reminders dated 10th March 1951 and 7th July 1951. There-fore, on the 1st October 1951, we write to the Electrical Engineer to Government, drawing his attention to the above state of affairs and pointing out how absolutely essential it was for us to have a copy of the list to safeguard the rights of the workers. That letter was acknowledged by him on 18th October 1951 by his No.G.55/7894 of 1951 with an assurance that the matter was receiving his attention. Thereafter we issued two reminders to him, one on 13th November 1951 and the latest on 17th December 1951, but the case still stands where it is.

Under the circumstances we have no alternative but to bring the question to your notice with a request that you will investigate it and direct the officers concerned to do the needful.....

D.O.No. 12788.

P.W.D. Secretariat, Fort,
Bombay, 10th December 1952.

Dear Shri Dravid,

Further to my D.O. No. 12624 dated the 8th instant, I understand that another letter concerning the seniority list of workers in the P.W.D. Electrical Division was also addressed to Government by the Union, and a copy of the same is forwarded herewith for your information.

In this connection, I wish to state that formerly the Union concerned itself with the workmen in the Bombay Electric Sub-Division, which Sub-division has now been split up into three separate Sub-divisions, namely the Bombay City Electric Sub-Division, the Bombay Suburban Electric Sub-division, and the Kalyan Electric Sub-division. Each Sub-division is now maintaining its own list of workmen and there is no consolidated seniority list available for the entire Division or for the entire Electrical Circle. Actually, the question of promotion among workmen did not come up very frequently, and in any case, promotions are confined mostly from wiremen's posts to the head wiremen's posts anywhere in the Electrical Circle. So far, the practice has been to fill up the posts of head wiremen, whenever vacancies occurred, by reference to all the Sub-divisional Officers in the Electrical Circle, and so far only the seniormost men have been promoted; but it has almost invariably been found that wiremen working at a place do not accept higher posts of head wiremen at other places on account of the serious inconvenience due to transfer of services.

However, in order to understand what the Union's actual requirements are, I am inviting their representative to see me in the matter and I shall be pleased to submit a further report in due course.
